*East Rochester, New Hampshire**1951*

Greetings to all our friends everywhere, and many thanks for all the fine orders you sent to Sunlight Gardens last season. This year, as usual, nearly all our bulbs were grown from bulblets. The greatest drought in the history of our section held sizes down, but it gave us some nice clean bulbs. Small sizes of most varieties will bloom if planted early, but medium sizes will give larger blooms. This is the size we like to use for our florist trade. Large bulbs do not usually produce so many bulblets but they will bloom a week or more earlier than the smaller sizes.

Large bulbs will measure $1\frac{1}{4}$ inches or more. Mediums measure $\frac{3}{4}$ to $1\frac{1}{4}$. Small are $\frac{1}{2}$ to $\frac{3}{4}$ inches, while planting stock measures less than $\frac{1}{2}$ inch. Unless otherwise noted, bulblets will be sold by the package. Counting consumes so much time that it is cheaper to package a handful. Twenty-five cents per package for all the regular kinds.

Unless otherwise noted after the description of a variety, the price of all bulbs will be as follows:
Large 2 for .20, Medium 4 for .20, Small 10 for .20
Large 10 for .80, Medium 10 for .40, Small 10 for .20
Bulblets are \$1.00 per half pint or \$3.00 per quart.

Five or more bulbs may be purchased at the ten rate but please make each item at least 20 cents. Where prices are given after the description of a variety, the price for 10 will be 8 times the price of one. You may have 5 or more at the same rate.

Excessive shipping charges make it impossible for us to accept orders for less than \$2.50. Retail orders will be shipped prepaid east of the Rockies. West, add postage at the rate of fifty cents per 100 large bulbs.

WHOLESALE ORDERS

On a great many varieties we can furnish medium and small sizes and bulblets at wholesale in lots of 100 or more. Write if interested and I will be happy to quote prices.

FIFTY CENT SPECIALS.

If you want a long period of bloom of any one variety selling for not more than thirty-five cents per large bulb, I will send you a selection of mixed sizes for fifty cents. The number of bulbs will vary, depending upon the price of the variety, but it will be in excess of the catalog value. If a large bulb is priced more than thirty five cents, send one dollar. If it is more than one dollar, send two. If you want some bulblets included, specify it in your order. I will guarantee to please you.

EXHIBITION MIXTURES.

Each year I sell many orders of mixed bulbs to those who do not care to grow the varieties separately. I put these up as they are ordered, in a grand mixture of colors, but can add or leave out any colors as instructed. While I recommend growing varieties under name, this is still the best buy in a catalog of bargains, for the price is the same as it was five years ago, even though shipping charges have doubled. Large 100 for \$5.00, 50 for \$3.00. Medium 100 for \$3.00. Small 200 for \$3.00. Small sizes of most varieties will give nice bloom if planted early.

SEEDS.

I couldn't find the time to do any extra hybridizing this season, but I can heartily recommend Russell Kelly of Merrimac, Mass. He makes hundreds of crosses and is probably the biggest hybridizer in the East.

I would suggest that you file this list and then compare my prices with those of any other grower. I believe you will find it to your advantage to buy of SUNLIGHT GARDENS.
